

Company Profile xSuite Group 2022

We're a Global Leader in Accounts Payable Invoice Automation for SAP

xSuite Group is among the leading software manufacturers of intelligent applications automating document-based business processes. We serve organizations across the globe with our expertise in workflows for accounts payable in SAP and provide all our services and software components from a single source. More than 200,000 users at mid-sized to large enterprises and public institutions use our solutions to process over 60 million invoices each year.

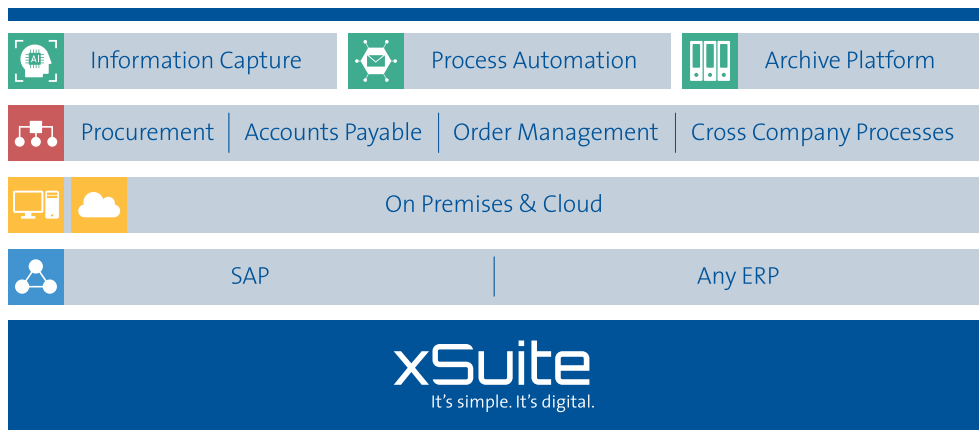

xSuite solutions optimize processes in the cloud, on premises, and in hybrid settings. They cover the whole purchase-to-pay workflow from requisitioning and the integration of procurement files to the receipt and processing of order confirmations and invoices. For digital integration of suppliers, we offer a business partner portal.

The entire digital workflow is based on xSuite technology and contains the components necessary for document capture, workflow, and audit-proof archiving, with all the advantages of targeted AI functions for optimal usability.

In addition to expert process consulting, project coordination and software implementation, we offer training, support, and managed services.
