

Press Release No. 14/2025

Brait Consulting and xSuite Group Enter Strategic Partnership

Spanish ECM and invoice processing specialist to offer customers SAP-certified solutions from global accounts payable automation expert xSuite

June 13, 2025 — Ahrensburg, Germany/Tuleda, Spain

Speto & Brait Consulting Group, S.L has signed a strategic partnership agreement with xSuite Group. The agreement, finalized in April, establishes Brait Consulting as a new Solution Partner of the German software provider. Going forward, Brait will market, implement, and support xSuite's solutions for automated invoice and procurement processes, as well as digital archiving—both within Spain and across other European markets. This partnership marks a strategic shift for Brait Consulting as it expands its modern, SAP-focused service portfolio.

Headquartered in Madrid/Spain, Brait is an IT consulting firm specializing in the digitalization and automation of business processes in SAP. With expertise in invoice automation, e-invoicing, document management, and e-compliance, the company supports organizations in optimizing and integrating their SAP systems. As technological change accelerates and many businesses prepare to transition to SAP S/4HANA, there is growing demand for modern replacements for legacy systems, particularly in invoice processing.

Through its partnership with xSuite, Brait can now offer SAP-certified solutions that support all SAP deployment models—cloud, on-premises, and hybrid. xSuite's end-to-end solutions, especially in the areas of purchase-to-pay and digital archiving, are recognized for their high degree of flexibility. The company also offers a forward-looking product roadmap that incorporates emerging technologies. Together, these features make xSuite a powerful and future-ready alternative for companies undertaking SAP S/4HANA transformations.

f.l.t.r.: Gonzalo Isla Baranda, Managing Director of xSuite Iberia and Édgar Jiménez, CEO of Brait

“We’re excited about our partnership with Brait Consulting, as it significantly strengthens our presence in the Spanish market. This collaboration allows us to jointly deliver future-proof and innovative automation solutions for finance and procurement to SAP customers,” said Andreas Nowottka, Managing Director at xSuite. “By combining Brait’s deep consulting expertise with our advanced software, customers will benefit from intelligent, efficient, and sustainable process optimization.”

Édgar Jiménez, CEO of Brait, added: “SAP customers today require solutions that are technologically advanced and functionally robust—regardless of whether they run SAP in the cloud, on-premises, or in hybrid environments. With xSuite, we now offer a platform that meets these demands: modular, SAP-certified, and globally deployable. We are particularly impressed by the close and collaborative nature of the partnership, as well as the clearly defined roadmap, which enables us to deliver long-term, future-ready support to our clients.”
