Meet your Speaker

Jan Schulze

Global Vice President of Product Management
xSuite Group

Jan oversees the entire product lifecycle - from ideation to launch. With a degree in business informatics, he boasts expertise across both business and technology. Jan thrives on collaborating cross-functionally to deliver robust products that solve real-world challenges. His strategic mindset and technical know-how drive the development of xSuite's intelligent automation solutions.

Agenda

- 1 xSuite Group: About Us | Solution portfolio
- 2 AI in xSuite and in SAP-integrated invoice processing
- 3 AI in Practice: Support and Automation in the Process
- 4 Q&A

A modern office interior featuring a glass staircase with a white railing. A large, white, abstract sculpture of falling papers or leaves is suspended in the center of the space. The office has large windows, a wooden wall, and a glass railing. The text "xSuite" is overlaid on the left side of the image.

xSuite

We are a leading software manufacturer
for automated business processes in SAP.

What makes us special

Professional Expertise

We build on 30 years of experience in the development of SAP software.

Holistic Approach

All software components and services for the solution lines come from a single source.

Future-proof Technology

Our software combines innovative AI models with flexible hybrid cloud architectures.

Our solutions for you

xSuite

**We are
comprehensively
certified.**

Example
SAP Clean Core

xSuite is the first AP vendor to be certified

**Certificate
SAP INTEGRATION CERTIFICATION**

SAP SE

hereby confirms that the product **xSuite Invoice**

of the company **xSuite Group GmbH**

has been certified as built with SAP Business Technology Platform and integrated with SAP S/4HANA Cloud Private Edition via the SAP Integration scenario **BTP-EXT-CC**.

This certificate confirms the technical compliance of **xSuite Invoice** with SAP certification procedures.

The certification test is documented in report no. **34085** and expires on **November 8, 2025**.

The certification is listed on the SAP Certified Solutions Directory: www.sap.com/cscd

Certified Functions:

- Application runs on SAP Business Technology Platform - Cloud Foundry
- Multi-tenancy enabled
- Clean Core with SAP S/4HANA Cloud
- Works with HANA with SAP
- Built for Multi-Cloud

Oliver Weyand
November 8, 2024

SAP Certified
for clean cores with SAP S/4HANA Cloud

SAP certification ensures technical integration of an SAP solution. Vendor is responsible for the product itself, its fit to requirements, and behavior in operation.

For all current deployment models

certified for SAP S/4HANA by SAP.

100%

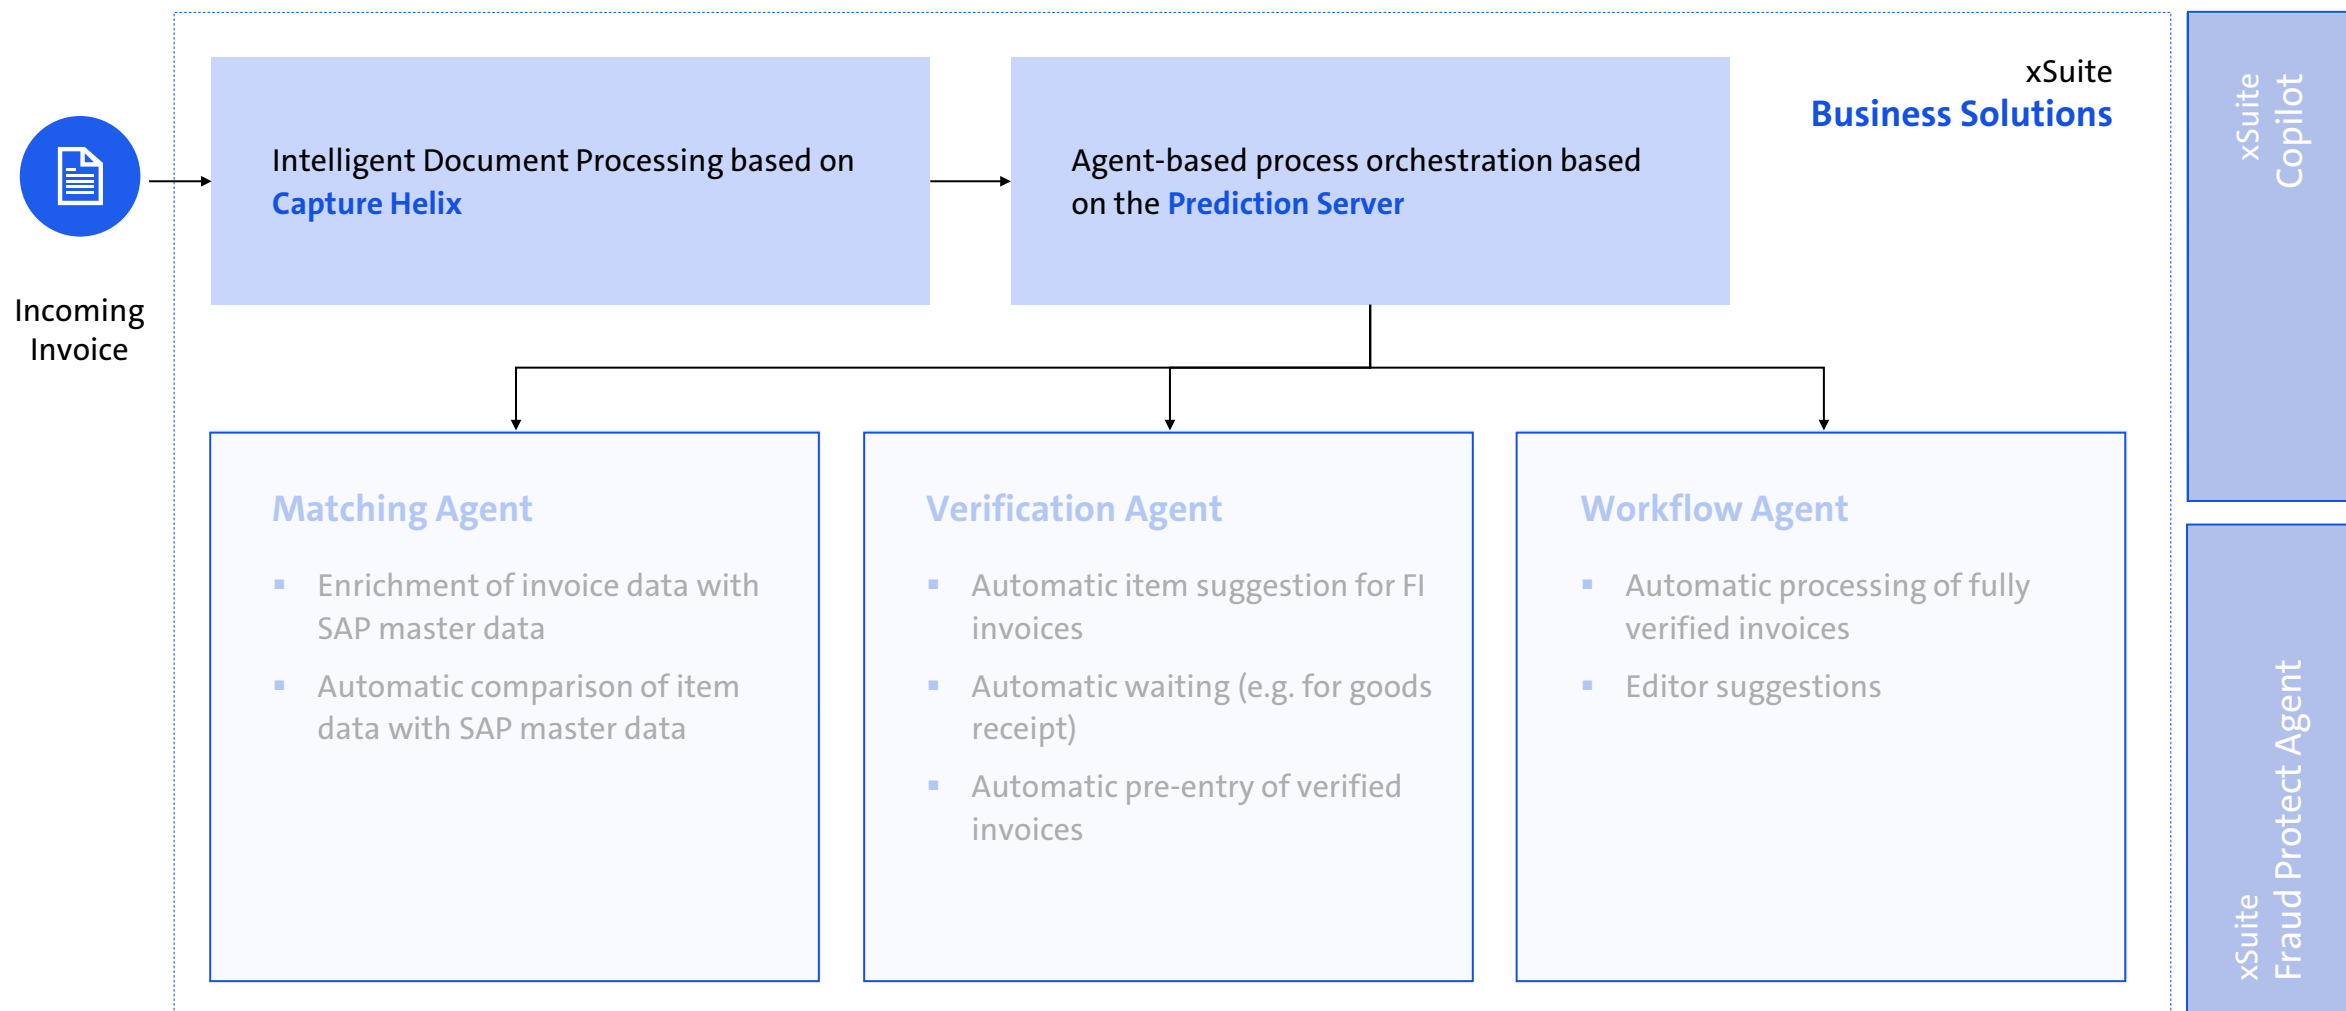

Automation in invoice processing

How we use AI

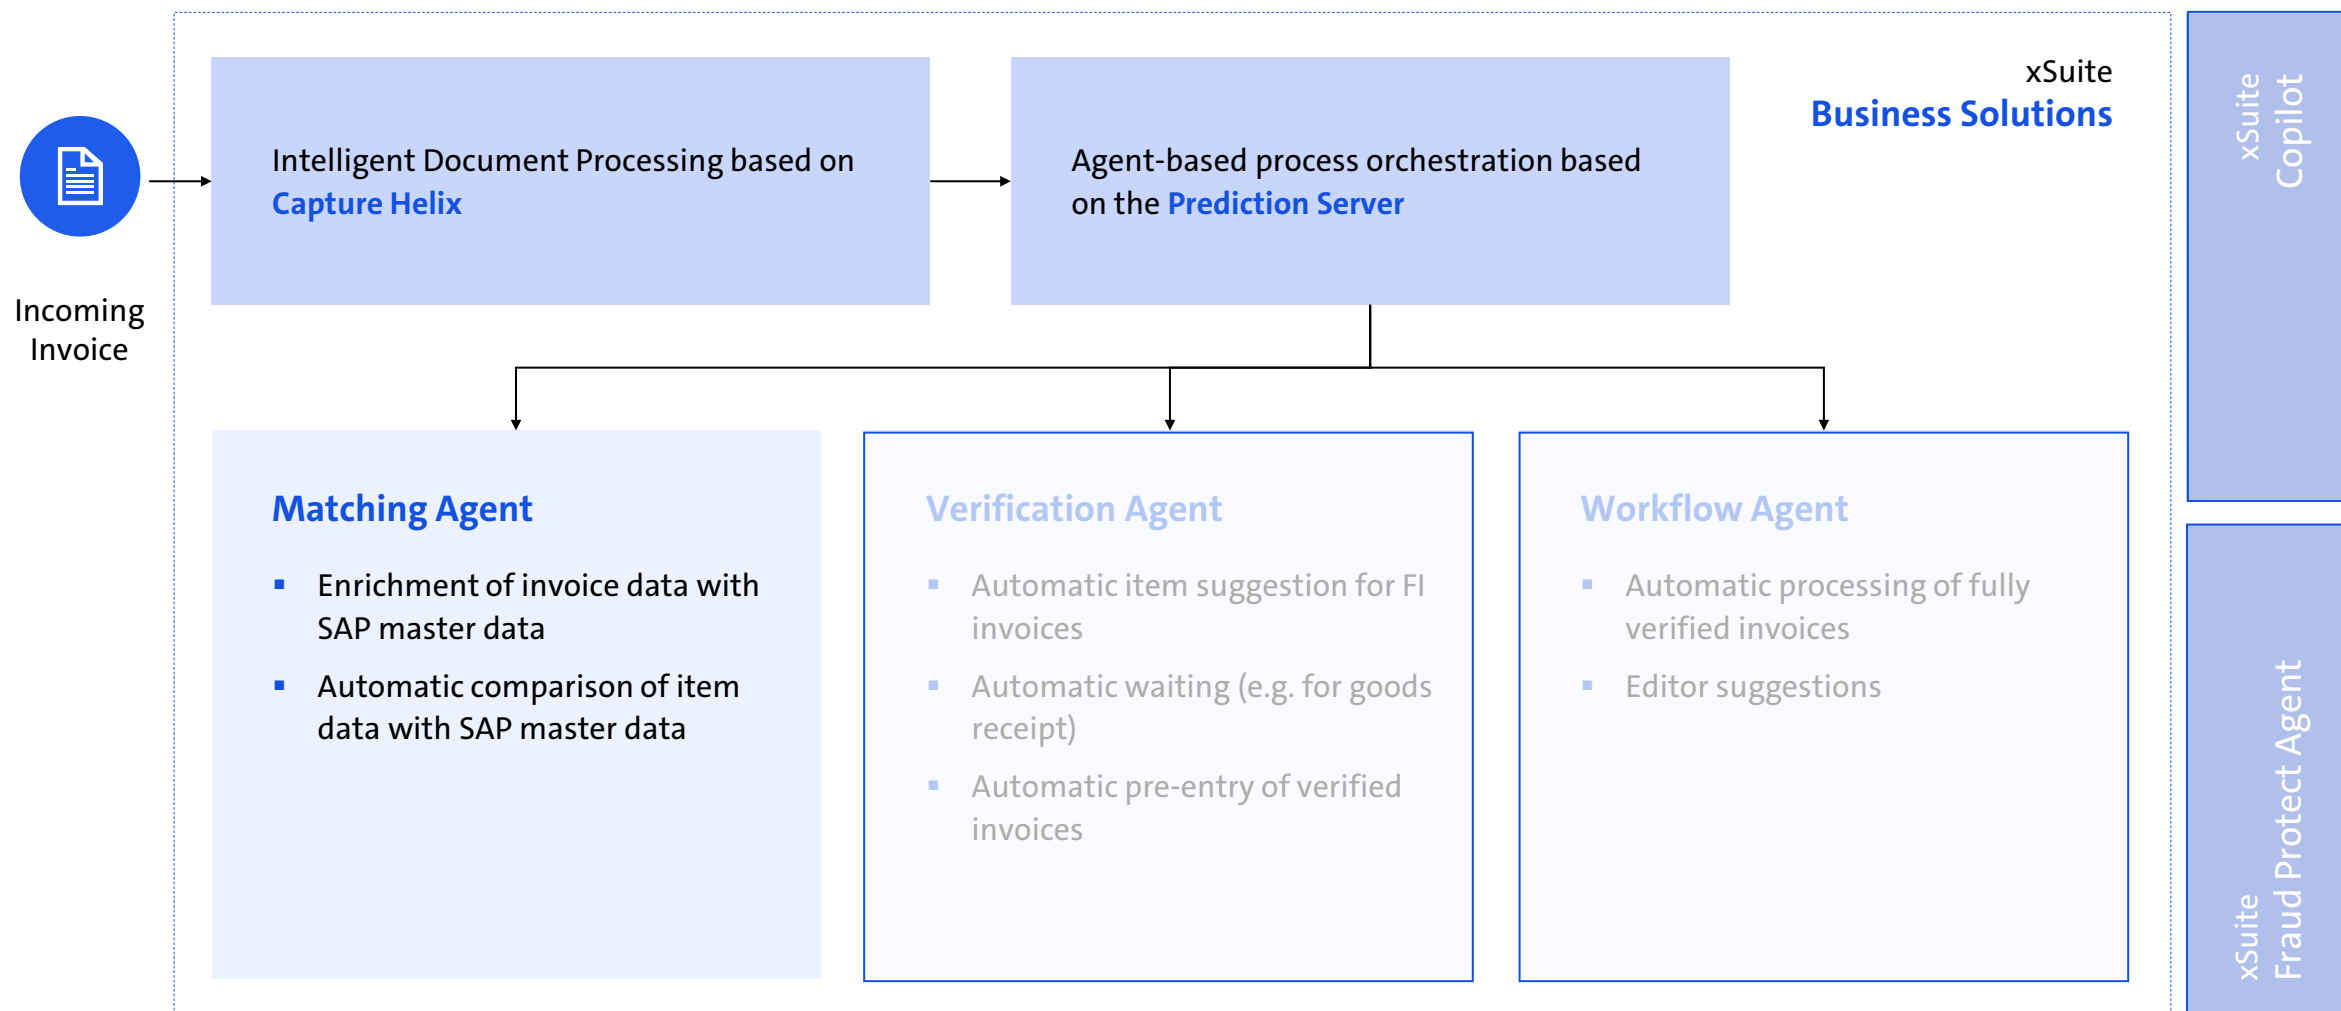

xSuite AI Agents: The Path to 100% Automation in the Invoice Process

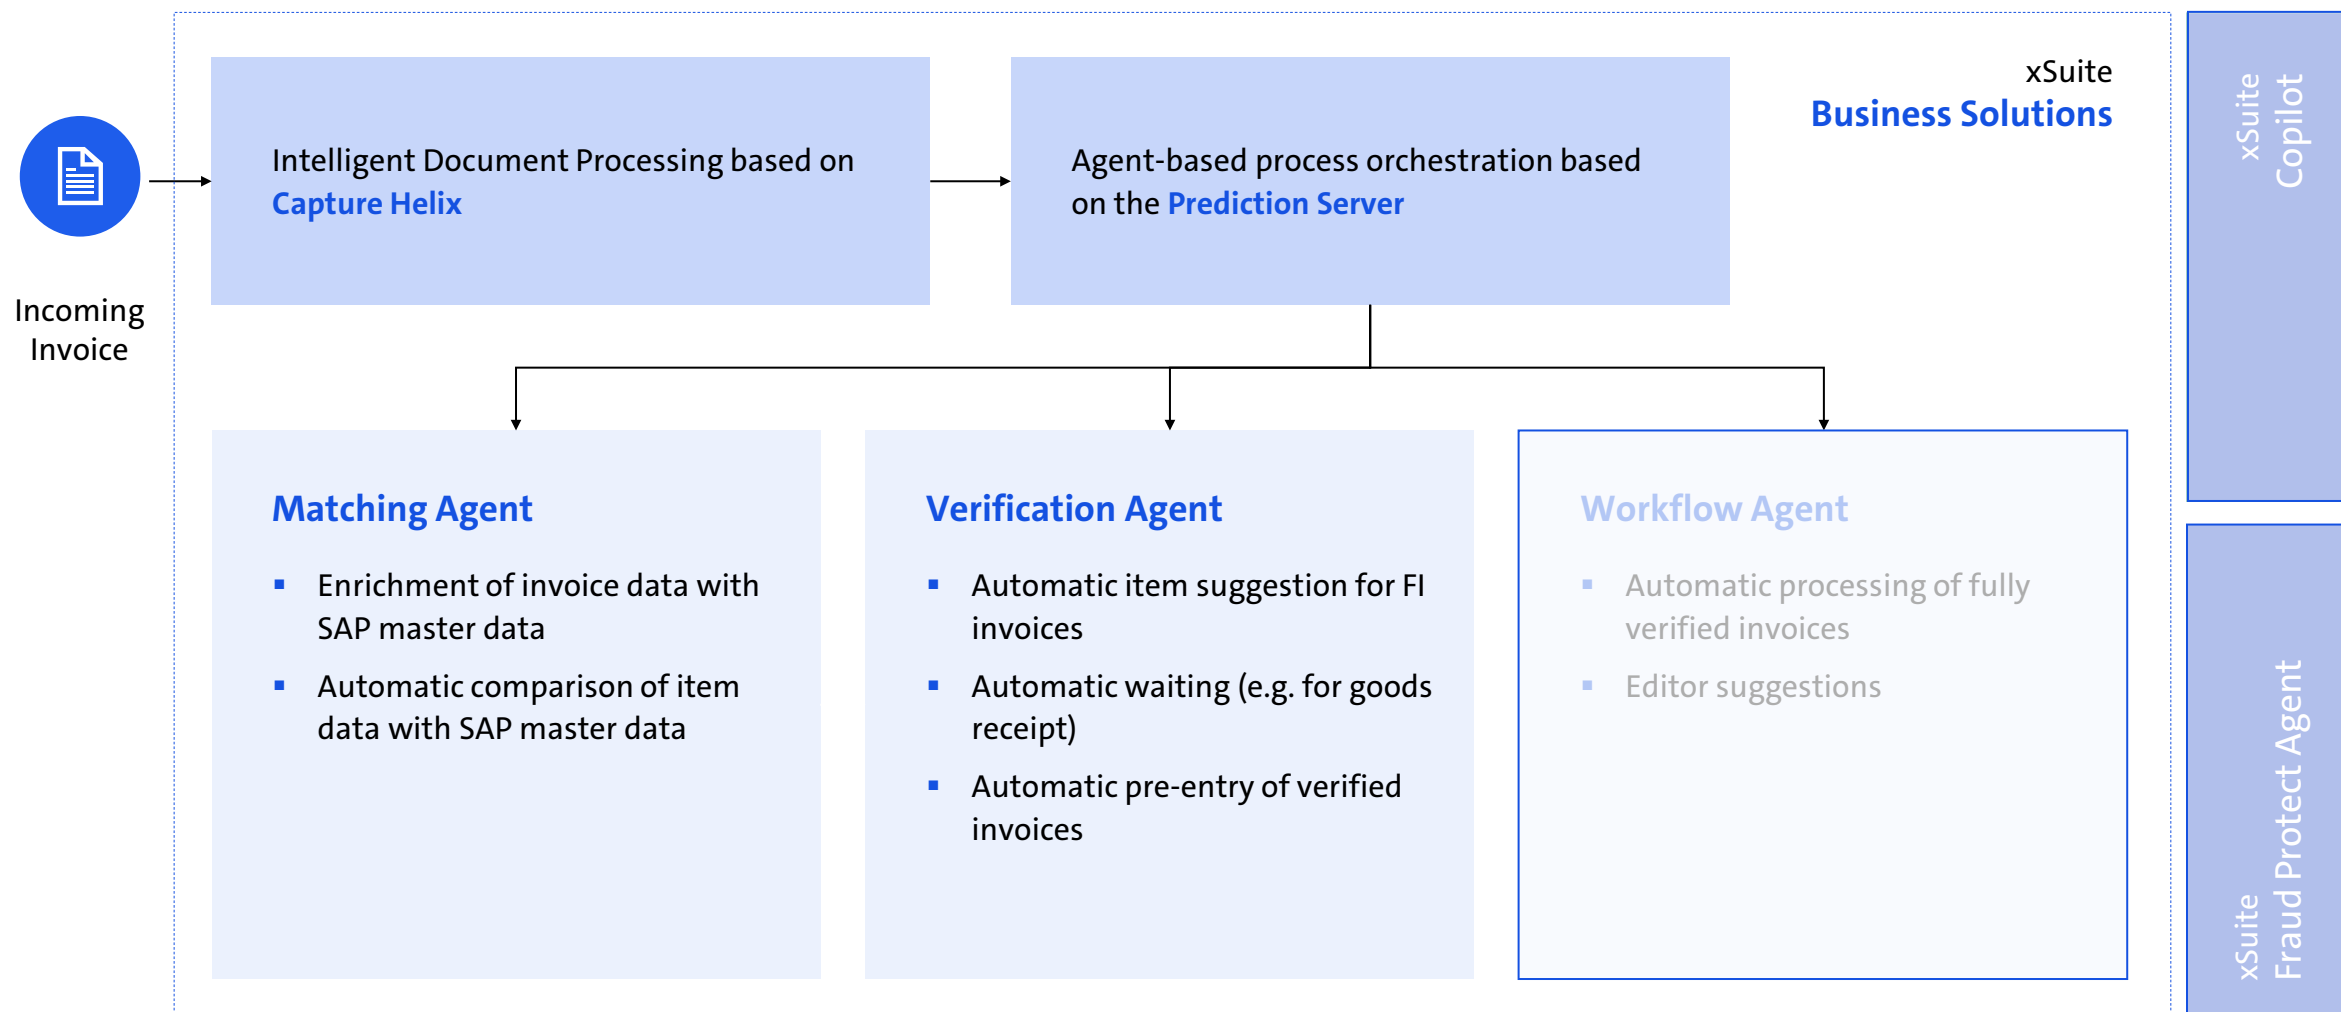

xSuite AI Agents: The Path to 100% Automation in the Invoice Process

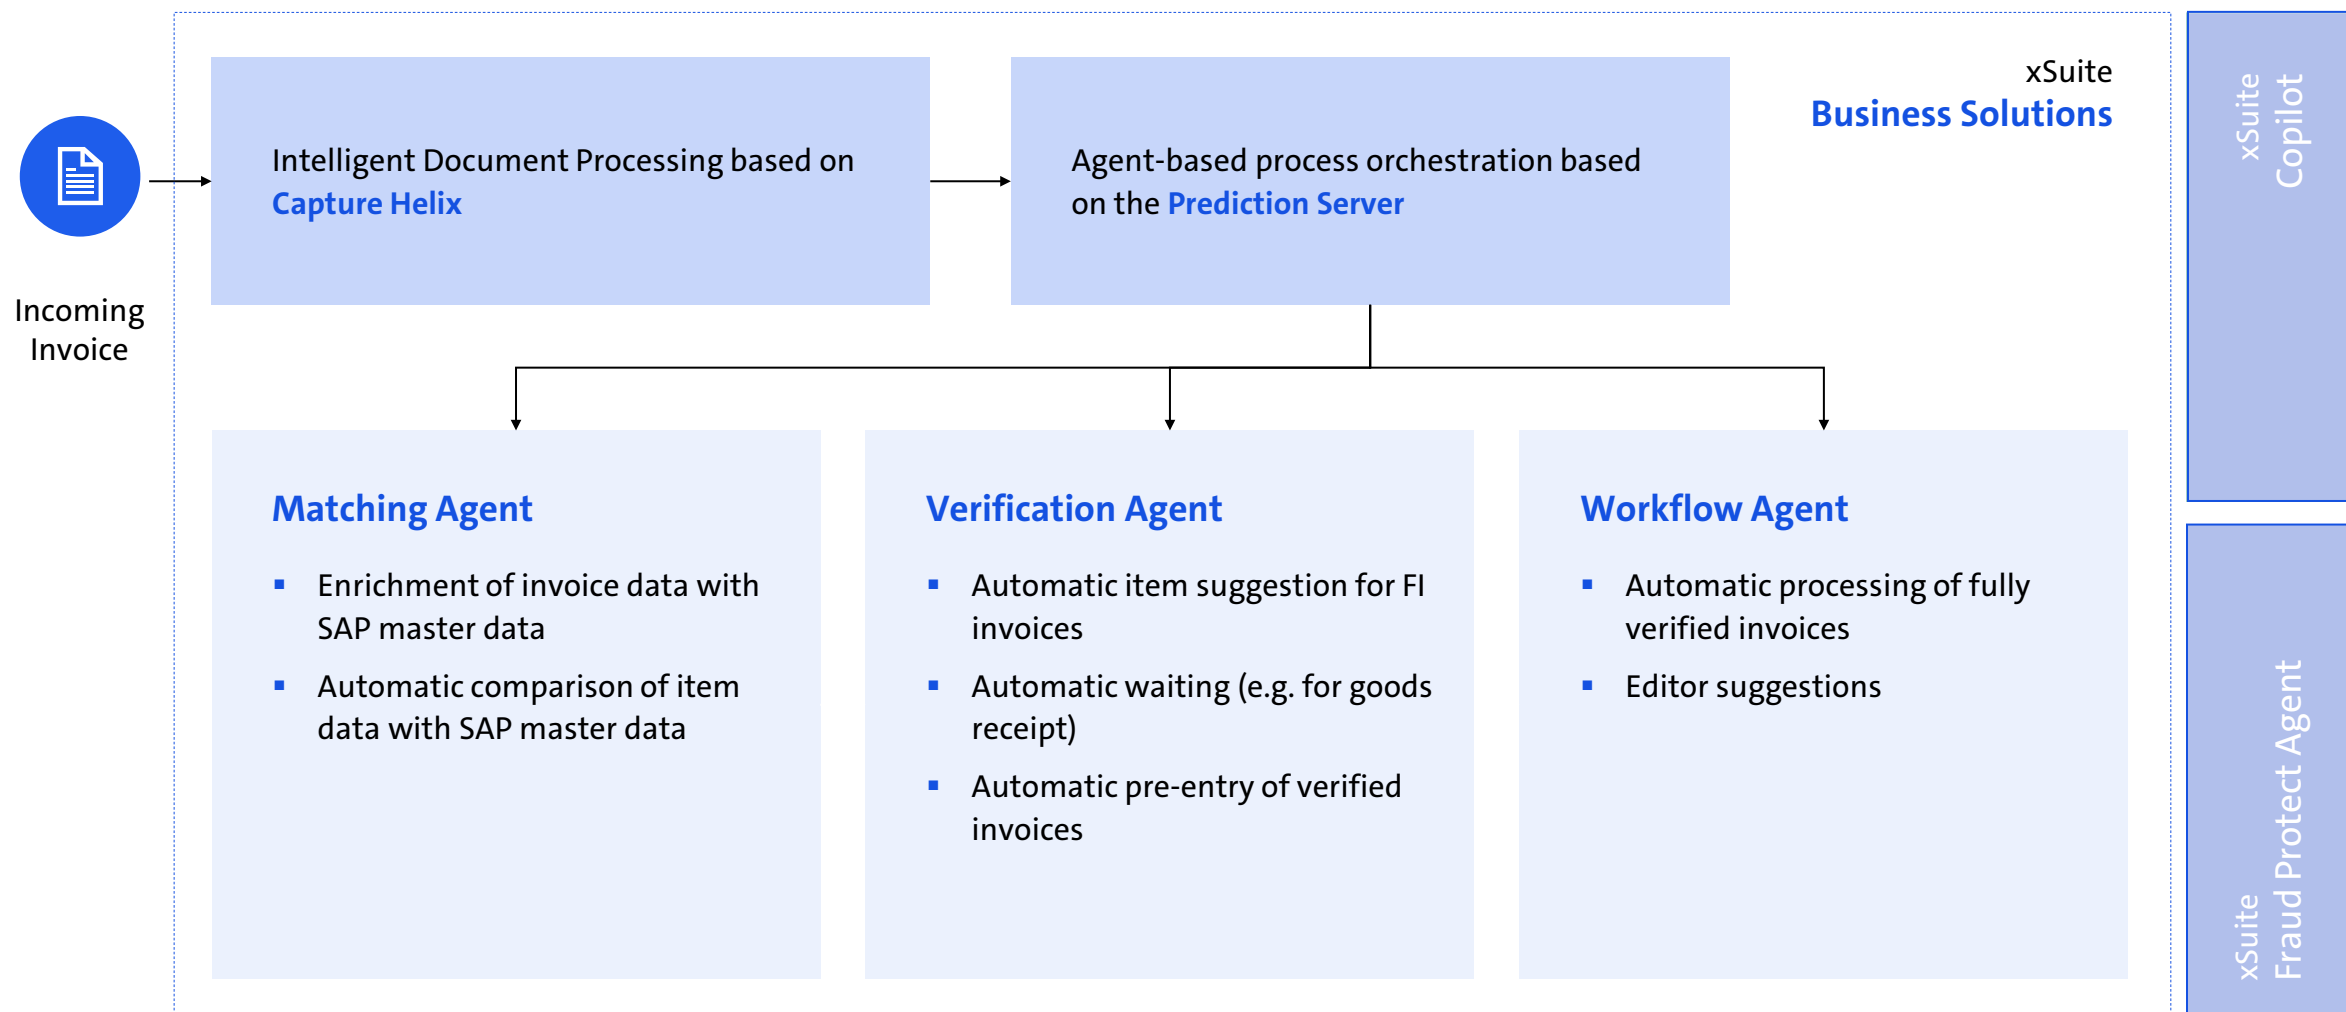

xSuite AI Agents: The Path to 100% Automation in the Invoice Process

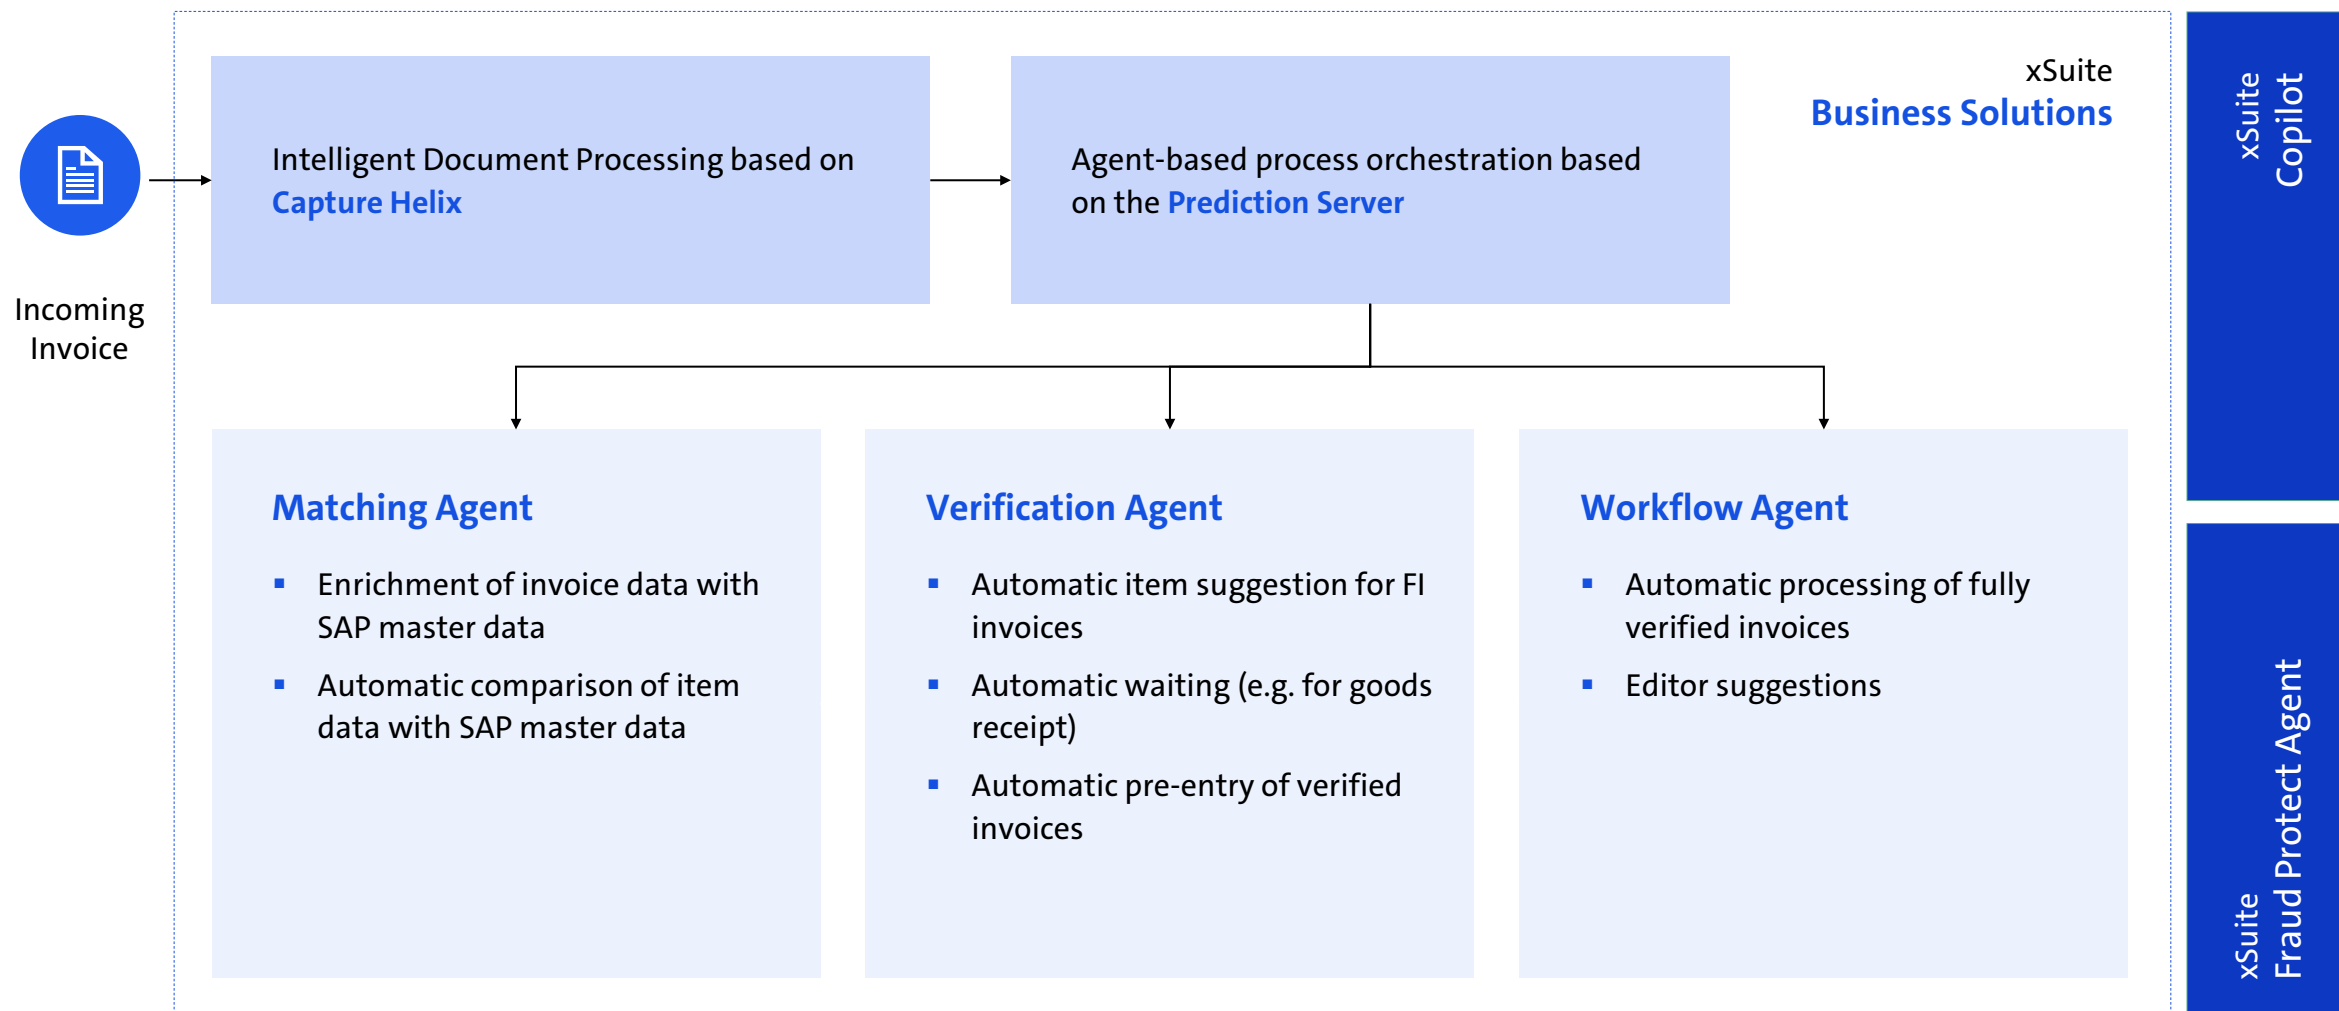

xSuite AI Agents: The Path to 100% Automation in the Invoice Process

xSuite AI Agents: The Path to 100% Automation in the Invoice Process

xSuite AI Agents: The Path to 100% Automation in the Invoice Process

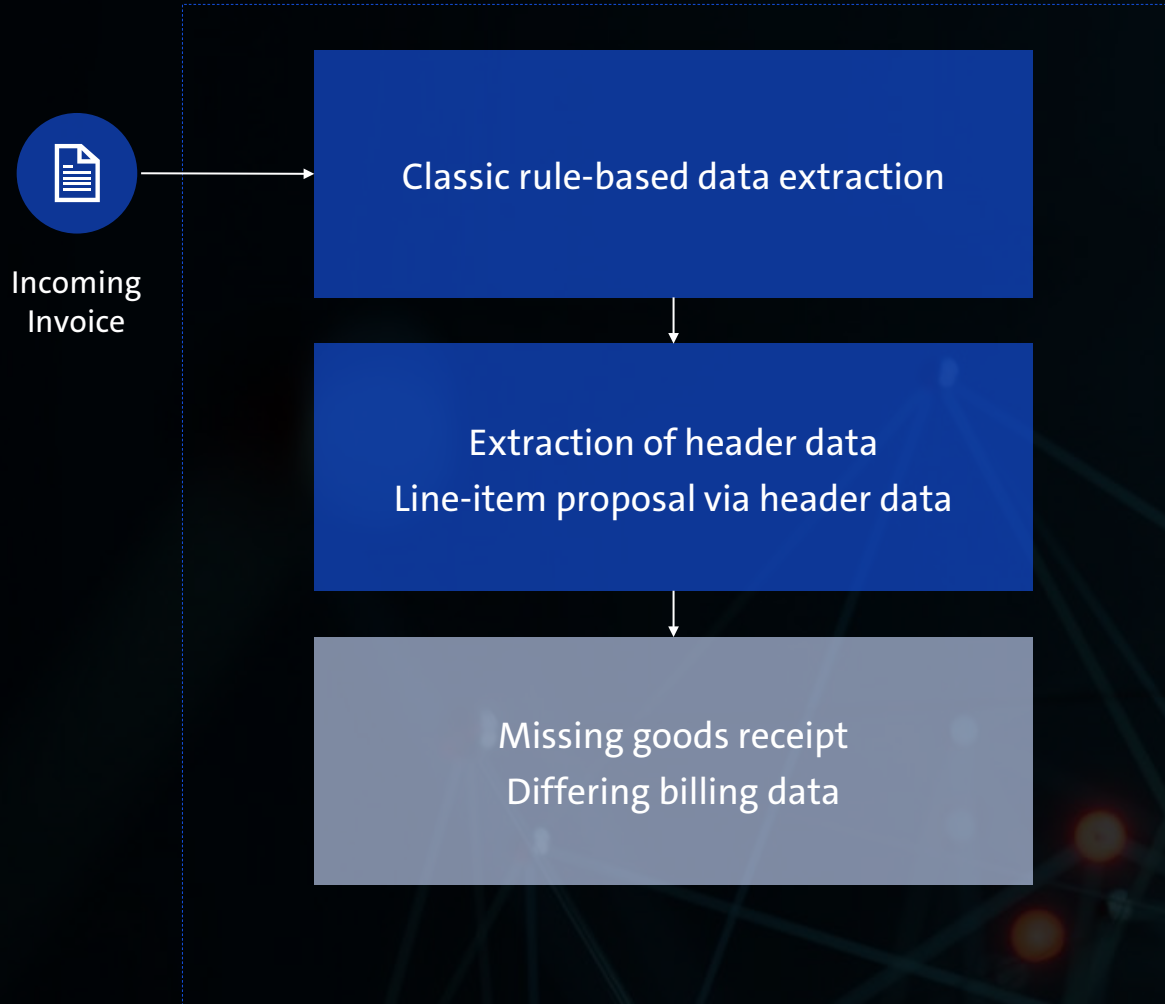

xSuite AI Agents: The Path to 100% Automation in the Invoice Process

Auditing today

Processing of invoices related to purchase orders

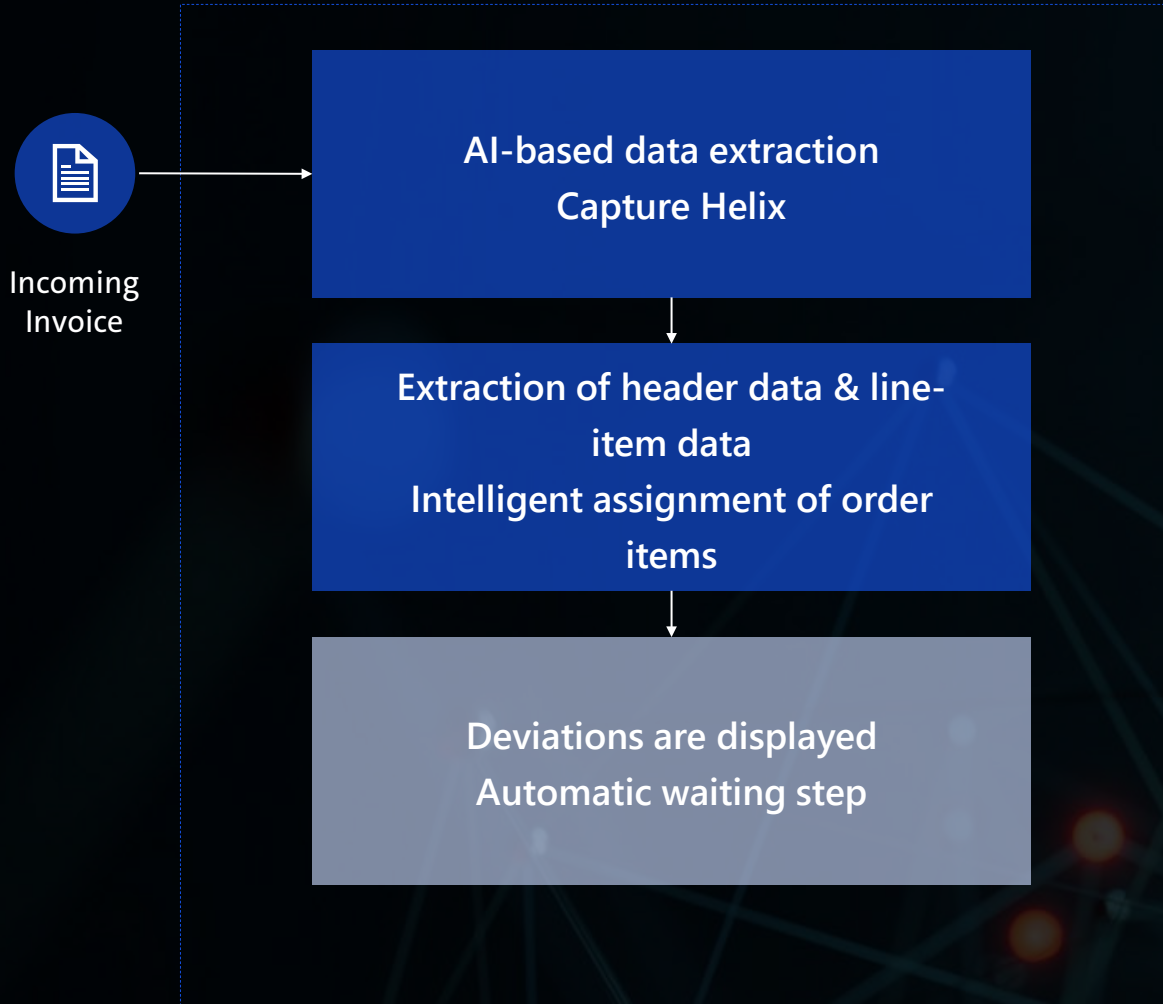

Challenges

- Inaccurate suggestion in case of missing goods receipt – zero items
- Deviations must be maintained manually
- For partial deliveries, all items are suggested
- Validation required to 90%

Auditing tomorrow

Processing of invoices related to purchase orders

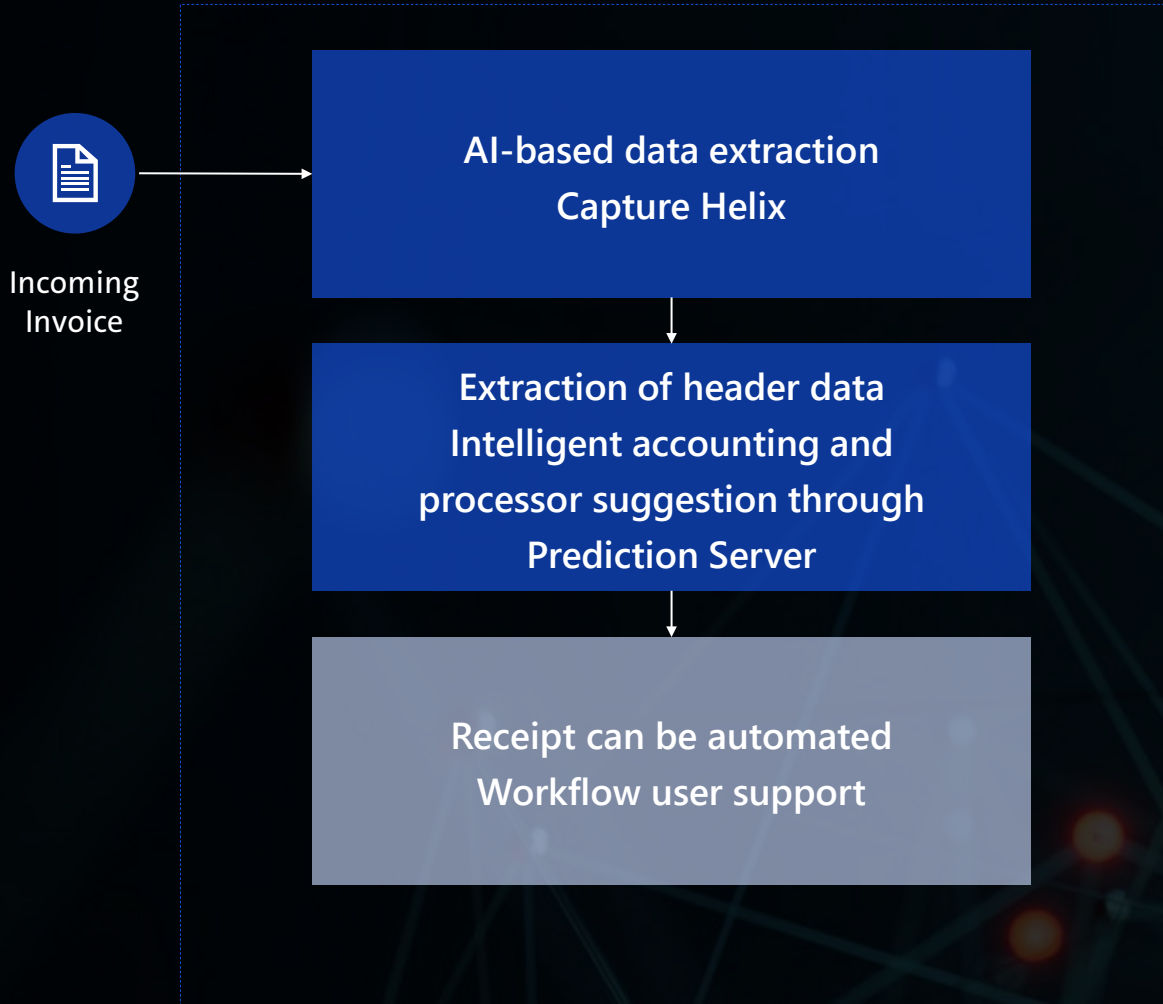

Pros

- Position suggestion through intelligent assignment (material documents, material number, EAN and much more)
- Deviations are displayed immediately and can be edited in the workflow
- New waiting step standard automates validation
- Validation will be the first workflow step for better automation in the future
- Additional workflow handling in the Invoice Monitor

Auditing tomorrow

Processing of invoices without reference to the purchase order

Pros

- Reviewers can be automatically suggested
- Automatic position suggestion The human decides
- Account assignment suggestions support the untrained user

xSuite Capture

AI-based recognition of document content

xSuite Workflow

Fraud Protection and Prediction Server

xSuite

xSuite Assistant

Copilot – smart support for decisions

xSuite

An abstract graphic representing a network or data structure. It features a complex web of thin, light blue lines connecting various nodes. The nodes are represented by small, dark spheres, some of which are larger and more prominent. Several of these nodes are glowing with a bright orange-red light, creating a sense of activity or data flow. The background is a deep, dark blue, providing a high contrast for the glowing elements.

AI Weeks 3/3

Agentic AP: Strategy & Roadmap of the xSuite AI Suite Mira

Join us for our final webinar to wrap up the AI Weeks series. Following the event, we'll email you the entire suite of resources, including all 3 sessions and provide access to our AI E-Book.

Register for May 19

Home > Webinars & Events > AI weeks | Agentic AP: Strategy & Roadmap of the xSuite AI Suite Mira

AI weeks | Agentic AP: Strategy & Roadmap of the xSuite AI Suite Mira

Artificial intelligence is fundamentally changing finance and accounting. In this webinar, we'll provide insights into xSuite's AI strategy. We'll demonstrate how automation in invoice processing within SAP is evolving: from individual AI functions to Agentic AP – a new level of automation in accounts payable. You'll learn about xSuite's understanding of AI and why combining various AI approaches – from large language models and deep learning to intelligent agents – with robust process logic is the key to a whole new level of optimized financial processes.

We will also provide an outlook on the roadmap for the coming months for our AI suite xSuite Mira. This includes, among other things, a fraud protection agent, a chat-based copilot, and LLM-based capture for additional document types.
