2

AI Agents with Domain Expertise

3

Mira Use Cases: Roles & Roadmap

4

Q&A

A modern office interior featuring a glass staircase, a large abstract sculpture made of white paper-like pieces, and large windows overlooking a green landscape. The scene is dimly lit, with light coming from the windows and some interior lights.

xSuite

- Detecting anomalies or unusual behavior

Agents with Domain Expertise: Copilot

Copilot

- Enabling users to interact with the software
- Supports users in their tasks and can proactively provide answers
- Provides recommendations and predictions for approval

Agents with Domain Expertise: xSuite Platform

Mira Use Cases

Intelligent. Embedded. Compliant.

Mira Use Cases | Roles

Messaging Agent

Field-level errors and warnings defined through plain-language prompts.

Help Agent

Guided task support with contextual help and Mira CoPilot Q&A.

Invoice Overview CoPilot

Natural-language invoice insights with permission-based access during workflow processing.

Example: "Show me all outstanding invoices from this supplier."

Coding Agent

Automated account assignment suggestions for FI postings, including G/L, cost center, tax code, and more.

Approval Agent

Faster approvals with insights from previously approved or problematic invoices.

Fraud Protection Agent

Fraud detection for duplicates, unknown suppliers, unusual amounts, and invalid bank details.

Workflow Agent

Automatically suggests suitable assessors based on historical data.

Bottleneck Agent

Identify approval bottlenecks by approver, vendor, or document type.

Communication Agent

AI-generated supplier email proposals for invoice error handling.
